To the Public.

THE SENTINEL, having double the circulation IN THE CITY, and more than treble OUT OF IT, of any other paper here, renders it far the cheapest and most desirable medium in Milwaukee for all classes of Advertisements.

EVERY BUSINESS MAN who consults his own interest, will avail himself of the columns of THE DAILY SENTINEL,—especially when he can do so at the same prices charged by other papers, and secure more than double the advantage of circulation.

This is no boast, but EVERY WORD TRUE.

News Digest.

By the arrival of the *Prince Albert* we learn that the transfer of the Galway line has been cancelled. Affairs in Syria remain unchanged. France is actively preparing for a powerful intervention and reports stated that the Emperor of Russia had expressed a desire to act in harmony with France and England.

A destructive fire occurred in New York City Monday night, in which Fowler's building, mostly occupied by printing establishments, was partially destroyed.

The news from California is interesting.

The progress of the Prince of Wales is marked by extraordinary enthusiasm.

A fire in St. Louis yesterday destroyed property valued at $45,000.

By the arrival of the overland mail, we have later news from Pike's Peak.

The La Crosse Wide-Awakes—A Success.

For the Sentinel.

For some time the La Crosse Republicans have talked of organizing a band of Wide-Awakes. The Douglasites, one week ago Saturday, got up a ratification—and oh, such a ratification! You have doubtless seen accounts of it. We laugh here at the idea of there being 2,000 people present. Are all DOUGLAS ratifications like the one at La Crosse, as to numbers? If so, when we hear of 10,000 people assembling, we can calculate there were—say 2,000. That is the ratio here—the difference between the truth and Democratic reports. Well, just before the DOUGLAS ratification our Wide-Awakes organized and sent for seventy-five uniforms, and, subsequently, for twenty-five more. We met once for drill, and once to attend a meeting at North La Crosse, the latter being held on Thursday evening last. The attendance was large on both occasions, and the enthusiasm immense. It had taken hold of all classes.

On Saturday morning our first order of seventy-five uniforms arrived. The day was cloudy and rainy; nevertheless, the Wide-Awakes dropped in during the day—put things in trim, and prepared for a "full-dress drill." It did a live Republican's heart good to see that crowd assembled together. There they proudly stood in their ranks—the best citizens of La Crosse—merchants, bankers, lawyers, doctors, editors, clerks, mechanics, and "mudsills." The contrast between them and the DOUGLAS group of the previous Saturday was marked, indeed. The Wide-Awakes are all staunch, sturdy citizens who have the good of their country at heart; the other comprised of street-loafers. There were some some respectable citizens, of course; but they looked as though they felt ashamed of the looks and character of their recruits.

At about 9 o'clock, p. m.—the night being dark—we emerged from our Hall, and marched, to the music of fife and drum, through the principal streets of the city.—The effect produced was magnificent and grand. There were many envious hearts in the crowds that followed us, as well as those who emerged from their dwellings to witness our debut. Who wouldn't be a Wide Awake? We were under the command of Capt. CONWELL and Lieuts. HUGHES and LAW. They are experienced men in military matters—they feel proud of their command and well they may.

Since our drill Saturday more uniforms have arrived and they are being rapidly taken. We feel confident that at our next drill, we will turn out 150 strong if we can procure the uniforms. We understand there are parties in Milwaukee who furnish uniforms for $1,00 per set. If this be so they had better make themselves known to the LaCrosse Wide-Awakes instanter. Send a sample and circular—its hard times and if we can get them as cheap as that, we can swell our numbers to 250 or 300.

The Republicans feel in good heart here. Things are working well. The recent change in the German paper, the *Nord Stern*, will tell. There were many Republicans among the Germans but they had no organ and kept quiet. Now they will make themselves felt, and we will venture the prediction that La Crosse will hereafter be known as a Republican city.

Dr. BLAKESSLEE, formerly of the *National Democrat*, is about to start an independent weekly paper. It looks like a hazardous movement, but if the doctor will be, as he can be, a man, and will publish a truly independent paper, bold, out spoken, gentlemanly and manly in its tone, he will succeed.

WIDE-AWAKE.

BRECKINRIDGE IN NEW YORK.—The DOUGLAS organs try hard to make their readers believe that Mr BRECKINRIDGE has no strength in any of the Northern States. But the following from the N. Y. *Journal of Commerce*, the most influential organ of Democracy in the city of New York, tells a very different story:

> "From what we see and hear, we are inclined to believe that the Breckinridge vote in this city will much exceed the Douglas vote, notwithstanding the latter has the endorsement of Tammany Hall and Mayor Wood. There are doubtless many Douglas men here, but we scarcely ever meet with one. Among the merchants there is an unprecedented degree of unanimity.
>
> Kings county is also strongly for Breckinridge.
>
> Queen, Suffolk and Richmond counties are for Breckinridge. Says the Greenport (Suffolk) *Republican Watchman*: 'From extensive personal observation and inquiry, we venture to affirm that at least four-fifths of the democratic party in this assembly district, and a large majority in the (Suffolk) county, are for Breckinridge.'
>
> In short, this entire section of the State below the Highlands, comprising nearly or quite one-third of the democratic votes in the State, is, we believe, decidedly in favor of Breckinridge, as compared with Douglas. In the State at large, Douglas is probably ahead, but will not long be so if Breckinridge continues to gain as he has done.

MOURNFUL ACCIDENT.—Last Friday an infant child of Mr. JAMES BILLINGS, who lives about three miles above Beloit, on the Turtle Creek, was left in charge of a little girl while its mother carried some provisions into the harvest field, to the men at work there. When she returned she found the infant dead upon a bed. The little girl left in charge of it had become wearied in attending it and laid it upon the bed, where it had turned upon its face and was smothered.—The age of the infant was five months.

THE CROPS AND HARVEST.

Another Word about Portage City—The Fox River Improvement—Bad Policy of the Milwaukee & Minnesota Rail Road.

Correspondence of the Sentinel.

PORTAGE CITY, July 31st.

I had to spend a day longer than I expected here, as there is no train for LaCrosse Monday mornings. I don't regret it, however. The more one sees of this city the better he will like it. There is a great abundance of natural shade trees, in the outskirts of the city. I hope the people will have the good sense to let them stand, for if not now, their value will certainly be appreciated in a few years hence. The only fault I have to find with Portage City is, that it is too much *scattered* for the number of inhabitants, and and consequently does not present as active an appearance to the stranger as it would if the business were concentrated in one place or another. This is a fault, however, which time alone can correct.

The want of a good hotel in the business portion of the city has been greatly felt since the burning of the Vedder House. The Ellsworth House is neat and commodious, and perhaps as well kept as any other hotel of its size in the West, but it is not in the right location to accommodate the travelling public, standing on the west side of the canal about a mile and a half, I should judge, from the Rail Road station. It derives its business chiefly from local boarders, while travelers generally have to put up with the inferior hotels on the west side. I should advise any one stopping here, who regards comfortable quarters and good fare worth going *some distance* to obtain, to put up at the Ellsworth House. The "City Hotel" is in a pleasant and convenient location, and is kept by an exceedingly accommodating landlord, but makes no pretentions at being anything more than a "cheap hotel," and as such will suit a good many in these times.

The merchants fully appreciate the need of a first-class hotel on the west side, and I understand that there is a project on foot to convert the fine brick building known as "Pettibone Block," into a hotel. It would answer the purpose admirably, and would make as commodious a hotel as any in Milwaukee, excepting only the Newhall House. It is centrally located, and if kept in the right style would unquestionably do a good business, besides offering an inducement to travelers to stop here that Portage City does not now possess.

In my last I alluded to the Fox River Improvement. It is true that it has not yet been turned to any practical account; but the people are now moving in regard to the matter, and in all probability there will be a regular line of boats established between Portage City, Oshkosh and Green Bay this fall. It is thought that wheat can be towed in barges to Green Bay for 4 or 5 cents per bushel, whereas the cost of transportation by the Milwaukee & Minnesota Railroad to Milwaukee is 10 cents and 8 mills per bushel from this station.

At a meeting of business men here last week, a committee of two was appointed to go to Green Bay and see what facilities can be had there for the storage of wheat, and preparations are being made to put three boats and what barges will be needed for carrying freight, on the route immediately.

This action is brought about, it is alleged, by the hostility of the Milwaukee & Minnesota Railroad to Portage City. The merchants here justly complain that it costs them *more* to ship wheat to Milwaukee, by the Railroad, than La Crosse, or any other point between this place and the Mississippi. This unfair discrimination, they assert, is because of an old grudge which the Railroad Company harbors against them for refusing to issue their municipal bonds to help build the road. The result is, that while the business of Portage is injured, the Railroad is also injured, because the high freight tariff drives considerable produce to Chicago, via Oshkosh, a large quantity to Green Bay via the Fox River, and no trifling amount over the Baraboo Valley Road, that would go over the Milwaukee & Minnesota Railroad, from this point, but for the unjust discrimination complained of. The people here, however, are in hopes that the present management of the road will inaugurate a more just and liberal policy towards them.

Yesterday was a splendid harvest day, though a little too warm in the morning to work to advantage. In the afternoon the heat was tempered by a delightful breeze, and after the heavy rains of last week there is a good prospect for a week or two dry weather—the thing above all else just now to be wished for, as in nearly all parts of the State there is a great demand for harvest help.—I saw lots of farmers here on Sunday—they couldn't spare any other day—endeavoring, in the absence of any other laborers, to hire tradesmen, including tailors and shoemakers, to go out and take a turn at harvesting, and the tempting wages ($1,50 and $2,00 per day) induced them in many instances to temporarily exchange their accustomed occupations for the more remunerative harvest field. About two weeks of favorable weather will enable the farmers to get their wheat all secured. Yours, as ever,

POPULATION AND WEALTH OF NEW YORK CITY.—According to the *Tribune* the U. S. census will show a population of 862 257 in New York city, against 629,310 in 1855—being an increase of some *two hundred and thirty-two thousand* in five years. The value of the real and personal estate of New York is set down at over *seven hundred millions*. New York is considerable of a village.

HOW METEORS ARE CAUSED.—Professor Bartlett's theory for the explanation of this phenomena is as follows:

> "These bodies are of the nature of planets, and circulate about the sun in orbits as unerringly as their larger brethren. When they and earth come simultaneously to those points of their orbits which are nearest together, the action of the earth often becomes superior to the sun, and the small masses are drawn to its surface. Plunging with enormous velocity into our atmosphere, these little bodies compress the air in front and rub against it with such violence on the sides, as to produce heat enough to fuse, and light sufficient to illuminate the most refractory and darkest of substances. The exterior and molten crust is swept to the rear by the resisting air; a new surface becomes exposed; this, in its turn, is fused and carried backward, and so on till finally the whole track of the meteor is strewn with groups of disinterested and scintillating material."

A PROMINENT CITIZEN KILLED ON THE CENTRAL RAILROAD.—James Stewart, Esq., a well-known and highly esteemed citizen of Amsterdam, was instantly killed last evening by a train of cars on the Central Railroad. He was conversing with a gentleman on the track of the road, near his house, when an express train approached, and, not observing it in time, he was stricken down and killed. The gentleman with him observed the approach of the train just in time to leap from the track.

Mr Stewart was a man of wealth and high character, and well-known as a railroad contractor and agriculturist. He was a brother-in-law of John Tweddle of this city, and his sudden and melancholy death will carry sorrow into very many households.—*Albany Journal, July 28th*

CURE FOR PLEURO PNEUMONIA.—It would seem that a cure has at last been found for this terrible disease in simple cold water.—It is stated in a foreign paper that bathing has resulted as a perfect cure, and that a gentleman in Ireland who tried the experiment on eight cattle that were affected saved seven of them by driving them into a bath. The cure is being performed in this manner in different parts of Ireland, and is about to be tried in Connecticut.

From St. Paul to Chicago.

Correspondence of the Milwaukee Sentinel.

CHICAGO, JULY 30TH, 1860

MESSRS. EDITORS:—I have been to St Paul, and a delightful trip it is to that apostolic city. The whole West is alive with travelers, and the activity of the different Railroad Agents on the Mississippi, reminds one of the palmy days of steamboating on the Lakes.

At St. Paul I wished to make the shortest trip possible to Chicago, and wended my way towards the steamer *Itasca*, Captain WHITEN, for the purpose of learning from the "fountain of truth" my best route, when I was accosted by an Agent, who assured me by all that was "near and dear," that I *must* go by the way of Prairie du Chien, as the steamer *Itasca* would not connect with the Milwaukee train of cars at La Crosse, and that I would be obliged to "lay over" two or three hours at La Crosse waiting for the 5 o'clock train, next morning; whereas if I continued on the boat and took the Prairie du Chien route, I would go right through via the Milwaukee & Mississippi and Chicago & North-Western Railroads without delay, on a shorter route and quicker time. Jehu! how this world is given to lying. The Agents of the "Prairie du Chien route" gave me their card, on which was a "caution" telling me to "beware of the cards issued by the La Crosse Railroad;" and telling me that "the distance from La Crosse to Prairie du Chien is less than sixty five miles by *actual* measurement," and that "the route to Chicago via Prairie du Chien is the shortest by *one and a half* miles," and other things too numerous to mention, which card was signed H. D. FILKINS, Western Agent, and G. C. BLISH, Ticket Agent.

It is "the early bird that catches the worm," and as he had the first enthusiastic attack upon me, he no doubt considered me caged for Chicago, via Prairie du Chien; and I must confess that his suavity and address and steamboat eloquence had considerable effect uponme, and "almost persuaded me to be a passenger." But, as fortune would have it, I had not proceeded many steps further towards the boat, before an agent of the La Crosse route accosted me, and inquired if I was bound for Chicago. Upon answering in the affirmative, what did he hand me but that card, against which card No. 1 had cautioned me. Noticing the name of my old friend W. W. WILSON on the card, as North-Western Agent, I was obliged to read it, and ascertained that there were at least "two Richmonds in the field" and that I must "read, ponder and inwardly digest," before committing myself to either. WILSON's card was of the La Crosse and Milwaukee persuasion; and as I had never known W. W. WILSON, during the long series of years which he has devoted to railroading, "barking up the wrong tree," or, in other words, working for an unpopular and unprofitable route, I was induced to spend a few moments in reflection, when it occurred to me that the La Crosse and Milwaukee route must be the shortest by about thirty miles and the most expeditious, especially as cars travel much faster than steamboats.

By the time I reached the *Itasca* my mind was made up, and the La Crosse route for me was a fixed fact. My curiosity was somewhat excited, and I resolved to keep track of the passengers by both routes and see who would really reach Chicago first.

The *Itasca* left St. Paul Sunday morning July 29th, with quite a number of passengers, mostly for Chicago. On the arrival of the boat at LaCrosse, at 2:10 A. M., we found a train of cars already waiting for the passengers, via Milwaukee, and without delay we were rushing with lightning speed towards Lake Michigan, almost before the passengers via Prairie du Chien had left the levee. We reached Milwaukee the same morning at 10 o'clock (being the next morning after leaving St. Paul) and arrived in Chicago at 5 minutes before 2 o'clock the same afternoon, *four hours and forty-five minutes* in advance of the passengers who took the Prairie du Chien route.

Having important business to transact in Chicago, this four hours time was of great value to me, and I take pleasure to thus express my gratitude by giving publicity to the superiority of the LaCrosse route, from St. Paul to Chicago, over any other. Upon inquiry I ascertained that it was not unusual for passengers via LaCrosse and Milwaukee to reach Chicago from ten to twelve hours in advance of any other route.

I do not wish to disparage any Railroad, nor be the advocate for any particular company; but in these poetical times, when incidents of travel are almost invariably buried in a profusion of fancy phrases, I concluded nothing would be more acceptable to you than a few brief unvarnished facts.

The German Saengerfest at Buffalo.

The meeting of the German Singing Society at Buffalo last week, from different parts of the State of New York is described as the greatest festival gathering of the kind ever held in this country.

The Buffalo folks never before saw merry making on so gigantic a scale. It was a monster Pic-nic of thousands.

On Thursday they congregated in Moffatt's grove just outside of the city, and the *Courier* thus attempts a description:

> "To state that an immense multitude, say twice as as many gathered in the Depot the other night, spent the afternoon in the woods, and made the welkin ring with their chorus of jubilation, made up of every conceivable and inconceivable sound, does not define at all the destinctive character of the occasion, which in our eyes lends it a peculiar significance. To us it has nothing short of a national importance. We are not aware that every before in this country has any nationality asserted itself in so strongly marked a manner as did the German in yesterday's pic nic. It seemed really as if all American Germany had collected itself, after a century in which the restraint of new world manners had been endured. In the exuberant joy of such a meeting, everything of the new world was forgotten, and everything of the old was revived under the maples of Moffatt's Grove, as completely as if the spot had been four thousand miles east of here, somewhere "on the Neckar or the Rhine." Germany—emigrated, modified, Americanized Germany—was its old self again and acted out all its old Teutonic pranks, just as if the Atlantic had never been crossed. We would like any one to show us, in the annals of this country, another instance in which such a striking national phenomenon has transpired on such a scale.
>
> We despair of giving any just idea of how things looked in the grove. Everybody to whom we spoke agreed that it was a sight to be seen once in a life time, and never to be described. The Bluffs, the beautiful little valley, the glades and meadows comprised in the grove, were strewn thick with the multitude. They gathered in groups, each group large enough to fill a large hall, at points where the various societies had made head-quarters, and around the different dispensaries of lager beer and other good things. Everybody ate and drank and talked all at once, all the while. One or more of the splendid bands made the woods ring again, now on this side, now on that. A gun squad with the "Lady Washington," added to the din, and at intervals the irrepressible song, with its strong, manly chorus, burst forth from throats that gurgled with that everlasting lager. Flags floated among the trees and in the air; crinoline on the swing, ditto ditto; a myriad of glasses clinked; uncounted bretzels and sandwiches and sausages disappeared; kegs of beer rolled in and beer kegs rolled out, toasts were given and responded to, and thus the Pic-nic began.
>
> At the height of the festivities there was more demolition of lager, bretzels and rheinwein; more running to and fro in the wildest state of jubilant enthusiasm; more music by bands; more singing and cheering; more firing; more clinking of glasses; more filling and emptying of lager drinking-horns; in short, a grand, sweeping, universal deluge of good feeling and animal spirits. The New-Yorkers, who, according to an aged picnician, whom we overheard "sind der teufel," were foremost in inventing expression for the merriment. They dressed themselves up as mummers, in the most absurd costumes.—They had a Japanese troupe with "little Tommy" a prominent character, and in the oddest of processions they marched through the grove to the extraordinary music of cornstalk flutes, making halts everywhere, and performing sundry side splitting antics, to the infinite delight of the crowd. Others of the societies joined in the mummery; had meek music rehearsals, and wended in absurd state, amid the screaming multitude. For all the world the scene would remind one of Assumption Day in Paris or the Carnival at Rome. "Did you ever see anything like this?" inquired we of a venerable Teuton. "Ach, ja, in Deutschland!" quoth he. Certes, never in America was the match of the Sangerfest Pic-nic enacted."

California News by the Pony Express.

ST. LOUIS, July 30—8 P. M.

Pony Express, with St. Louis dates of July 1st, arrived at Carson Valley on the 15th and San Francisco 16th, bringing also letters left at St. Joseph by the previous Express.

The route between Carson Valley and Salt Lake is now reported well stocked and clear of Indians, so that future trips of the Express will be regular.

The news received of the double democratic nominations at Baltimore, perplexed democrats more than ever. Party organs hesitated to support either ticket for fear the other may prove the stronger one. The federal officials nearly all support Breckinridge. Salutes have been fired for Douglas, and then for Breckinridge, by the partisans of each in every principal town in the State.

The probabilities favor the nomination of two electoral tickets by the two wings of the party.

At a Douglas ratification meeting called at San Francisco, ex-Gov. Weller, Gen. McDowell, and other State supporters of the Administration, are announced as speakers.

The San Francisco Herald, the democratic organ, gave support to Douglas the day after his nomination was received, but orders from the Custom House, where the main support of the paper is derived, seem to have forced silence for the present.

Two companies of overland emigrants from Michigan, arrived at Carson Valley within the week, having passed over the Indian infested portions of the route without loss.

On the 14th, $320,000 remained in the State Treasury.

Statistics of operations of the San Francisco mint during the past year, show a total gold coinage of $11,900,000, and over $5,000,000 in silver coin.

Many people are leaving Visalia, a south-eastern border town, for the newly discovered silver mines near Owen's Lake, on the eastern slope of the mountains, 200 miles south of Washoe mines. At last accounts, 300 men had arrived at these mines, and rich silver lead and quartz, yielding $1,000 per ton, had been discovered.

Oregon dates are to the 13th. Four companies of United States troops were despatched to the country east of the Cascades, to protect the settlers against the Indians. Capt. Smith's company, while marching towards Honey Lake, was attacked by over three hundred Indians armed with guns and bows and arrows. The fight lasted nearly an hour, and several Indians were killed.

Gen. Harney arrived by the Pacific on his way to Washington.

Gold in considerable quantities has been found on the tributaries of the Deschates River.

An election for members of the Legislature of Old Washington Territory gives returns only from Cowlitz county, electing two Republicans by 30 majority.

IRREGULAR REGULATION.—A band of so-called "Regulators" has been formed in Cleveland, whose self appointed mission is to break up and "clear out" houses of ill repute. They "regulate things" by very irregular means, and the outrages which they commit, with entire impunity, it seems, are more to be deplored in a respectable civilized community than is the existence, even, of the iniquitous places against which they direct their vengeance. The Cleveland papers speak of the "operations" of these "Regulators," with as much *nonchalance* as though they were lawful police, acting under higher authority than that of Judge Lynch. The *Herald* describes, with evident pleasure, a performance of this mob last Thursday night, when seven houses were sacked. It says:

> "Doors were broken down, windows and furniture smashed, and the whole covered with tar. The inmates were pulled from their beds, shrieking and crying murder, &c., and the inevitable liberal supply of coal tar administered. Hardly a door in any of the four houses is left entire, and, with the exception of bedsteads, no furniture. Tables were reduced to pieces of the size of kindling wood, but the "Regulators" contented themselves with knocking a back or two or three legs off the chairs.
>
> * * * * * * *
>
> In and around these houses are seen numerous articles of male and female attire, covered with coal tar, bedding thrown around the rooms or piled in a corner, and saturated with the same.
>
> The "Regulators" are always disguised as negroes, and their sallies are made quietly, no warning being given until the onslaught upon a house commences. When this is begun, it is done quickly; between the time of the first assault upon a door and the complete destruction of all the barriers to the progress of the band, sufficient time for the escape of an inmate is rarely allowed."

There is not a word about the interference of the police with these lawless acts of mob violence, and it would appear that Cleveland is in a bad state of anarchy and disorder.

The New Masonic Hall.

We a day or two ago gave a description of the splendid building in course of erection by Mr. SHOYER on East Water street. Just Masonic Hall. Some idea may formed of its north of this is going up J. B. MARTIN's new appearance when finished, when we state that it is to be 120 feet front on Wisconsin street and 40 feet front on Water, these fronts being entirely of iron and wrought into a state of ornamentation which, though bewildering in written description, will present a complete and harmonious whole when finished.

Over three basement offices, will be the bank 24x40, with very fine entrances on each street. There are also to be four stores on this floor, with entrances all on Wisconsin street, besides offices and two bank vaults, together with a main entrance to rooms above.

On the second floor we are to have twelve offices arranged in handsome suits with closets and wardrobes, &c., attached to each, and on the third floor thirteen offices equally as comfortable. On the fourth floor is to be the Masonic Hall, 40x80—a splendid room, with large raised platform in the shape of an are reaching across the east end, and ante and reception rooms, of unusual size. The Hall will be finished in a superior manner and will make one of the handsomest public rooms in the city.

It is superfluous to add that the entire building, when the cornice is on, will present an appearance on Wisconsin street (with its 57 handsome windows buried in heavy iron ornaments and arched with scrolled caps) that our local architecture until then had not been able to attain. Although it was generally supposed when the district was cleared of its wooden tenements by fire, that buildings creditable to the city would immediately spring from the ashes, no one, we will presume to say, however sanguine or imaginative, drew a picture that would at all compare with the drawings and elevation of this building. Taken in connection with those going up around it, we may say without fear of contradiction that the block will for some years be hard to beat in Milwaukee.

Mr. G. H. JOHNSON, of New York, is the architect, and Mr. D. D. SIBLEY, one of the oldest builders in the city, is superintendent. The mason work is under the charge of Mr. SHINN. The building will cost nearly $80,000, and be completed in January.

THE NEW ORLEANS EXCURSION.—The great excursion of Southern visitors referred to yesterday, will reach Cairo on Wednesday morning and Chicago the same evening by the Illinois Central Railroad. It will consist of one hundred and fifty leading citizens from New Orleans, and from Jackson, Canton, and Holly Springs, Mississippi; Memphis and Jackson, Tennessee; and Trenton, Kentucky. Their visit to our city will be a remarkable occasion to themselves as to us.—The Michigan Central and Great Western Railroad companies have tendered them an excursion to Niagara Falls which has been accepted.—*Chicago Press and Tribune of yesterday.*

We repeat the hope, which we expressed yesterday, that a committee of leading citizens will go to Chicago to meet the Southern excursionists and tender them the hospitalities of Milwaukee, as well as an excursion over either of the roads leading hence to the Mississippi. We are quite sure that a goodly number of the party will visit our city, if invited to do so, and would be glad to take this route to the Upper Mississippi and St Paul. Many of the prominent citizens of Louisiana, Mississippi, Tennessee and Kentucky are of the party, and we should rejoice to welcome them to our city and State.

ARRIVAL OF SCHOOL TEACHERS.—For some days past the school teachers have been concentrating in the city, preparatory to meeting in what is called the State Teachers Association, which assembles here to-day. It is estimated that between three and four hundred will be present. As these visitors will, in all probability, do considerable shopping while here, we have no doubt of their concentrating being unobjectionable.

There is, however, little need of appealing to interest. The hospitable citizens of Milwaukee will see that the teachers are properly cared for during their stay. The card of Mr. FORD, the Superintendent of Schools, which we have already published, calling upon those who are ready to entertain teachers to give their names in. We can only wish that we were *host* of a big house; from what we have already seen of the *marms* we think it highly probable some of our citizens will entertain angels unawares.

THE METEOR.—"Eighteen sixty" is getting to be notorious for whirlwinds, comets, meteors and dreadful crops. In regard to the meteor, we are assured that it was seen by several in this city. We also see that a correspondent of the Madison *Argus* witnessed the phenomenon. This gives it a wider range that the people of New York may like. We guess the critter knew no North and no South.

GOOD GRACIOUS!—HATTIE TYNG writes a letter to the *Wisconsin* from Chicago, and says the mornings there are "as glorious as the burst of a thousand milleniums upon the world." What must it be like at noon day? SQUELKS, who spent a morning there lately, says it was like the burst of a thousand sewers.

PERSONAL.—The Rev. WM. A. BARTLETT, of Brooklyn, N. Y., has arrived in this city and will lecture on Friday evening, we understand, before the Young Men's Association. Subject, "Spirit of the Age or Progress of Antagonism."

FESTIVAL AT MELMS' GARDEN.—We understand that the several German Musical Societies and Clubs of this city, will visit MELMS' Menomonee Garden, next Sunday, and enjoy the day in their peculiar manner.

Democratic Opinions of Mr. Codding.

It is not too much to say that the DOUGLAS men love Mr. CODDING. We recently had a conversation with a DOUGLAS man who prided himself on being unprejudiced in his criticisms—and who, by the way, belongs to the same religious denomination over which the subject of our remarks presided with so much ability. He admitted Mr. CODDING's zeal, talents, logic, eloquence, and love of truth—but when we referred to what the gentleman said of DOUGLAS, our friend concluded with:

"Oh, well after all he isn't by any means as smart a man as people try to make out."

This reminds us of the old but excellent story of the Frenchman—which not only illustrates the French character, but the character of our DOUGLAS man's criticism, too well to omit.

The day after the French Revolution, a gentleman stepped into his barber's shop in New York, and perceived a bust of Charles the Tenth had given place to one of Bonaparte.

"So," said he, "You have brought up Napoleon again?"

"Ah sir," said the Knight of the razor, "There was a man for you. He was a god sir!"

"Aye, but what do you think of his making war upon the poor Egyptians?"

"Ah, that was a glorious expedition, and recollect, sir, the battle of the Pyramids—he was a god, sir."

"But what do you think of his persecution of Prussia?"

"Ah, that was more glorious still. Remember Austerlitz, sir! Look at the column of the Grande Army in the Place Vendome—he was a god, sir!"

"Well, but what do you think of his treatment of CHARLES and FERDINAND, together with his desolating war in the Peninsular?"

"Ah, that was the most glorious of all.—Those Spaniards, sir, were poor, miserable devils till the Emperor killed their priests. Nothing escaped him, sir. He looked out for the liberties of all Europe! He was a god sir; yes, he was more than a god."

"But, my good fellow, do you justify his treatment of JOSEPHINE."

"Ah! *ma foi!* that's true! that's true! He was a d——d rascal!"

BRECKINRIDGE AND LANE MEETING.—The friends of BRECKINRIDGE and LANE in this city, met on Saturday evening in the office of S. L. ROOD, Esq., and organized by calling S. L. ROOD to the chair, and electing O. ALEXANDER Vice President, JOHN HORAN Recording, and JAS. G. JENKINS Corresponding Secretaries.

On motion, it was

Resolved, That a committee of five be appointed by the Chair to draft and report resolutions expressive of the sense of the meeting.

The Chair appointed, as such committee, Messrs. MITCHELL STEEVER, H. S. DAVIS, JOSIAH A. NOONAN, ALBERT BADE and SAMUEL I. BRIDGE.

The committee retired and reported the following preamble and resolutions:

WHEREAS, The Democratic party is one of immutable principles, alike applicable to the North, the South, the East and the West, underlying and forming the basis of our political existence as a nation; and

WHEREAS, Attempts have been made to sectionalize it, and make it subservient to purposes of personal ambition, regardless of consequences; therefore

Resolved, That while we lament the disruption of the Democratic party as a national calamity, submission to it is to be preferred to a sacrifice of those high national principles which have so long and eminently distinguished it as a national party and given it all its prestige.

Resolved, That while the nomination of John C. Breckinridge for President, and Joseph Lane for Vice President, may not be in all respects perfectly regular, according to former usage, yet we claim it as having been made by a Convention of Delegates regularly elected and representing a majority of the States, and all the States of the Union, expected to cast democratic votes for President and Vice President; and that in view of there being no regularly nominated democrats in the field, and that the facts of their being National men, tried patriots, standing upon the platform of the Constitution and the equality of the States we will use all honorable means to secure their triumphant election.

Resolved, That we suggest to the Union National Democracy, throughout Wisconsin, the propriety of organizing without delay, so that every vote may count on the ranks of the enemy, in whatever guise he may appear.

Resolved, That we recommend the holding of a Mass Convention in the City of Milwaukee, on the 4th day of September next, for the purpose of forming a Breckinridge and Lane electoral ticket, to be supported by the Union National Democrats at the approaching Presidential election

Which report on motion of Mr. Ellis, was accepted, and the resolutions unanimously adopted.

The BRECKINRIDGE men are organizing in earnest. They confidently expect a visit from the Hon. DANIEL S. DICKINSON in September, and hope to prevail upon him to make two or three speeches in this State

SUPERB HARVEST WEATHER.—The weather, yesterday, was magnificent. The sky was cloudless, the sunshine brilliant and the fresh North-East breeze made the temperature delightful. All over the State our Farmers and their help are busy, day and night, gathering in their super-abundant crops. The full Harvest moon lights them to their evening labors; and the bright sunshine and brisk breeze make pleasant their daily toil. Who ever saw a fine summer season.

THE FREE DEMOCRAT whines about the abuse of Mr. COGGSWELL, and calls upon us to explain. The writer of this paragraph took the trouble to explain all that laid in his power, both to Mr. COGGSWELL and to one of the editors of the *Free Democrat*. What shall we do now?

ARRIVALS.—Among the arrivals in the city yesterday, we notice the following gentlemen: Mr. WENTWORTH, Principal of the Scammon School, Chicago; Mr. BROOMELL Principal of the Dearborn School, Chicago; Mr. STRATTON, Principal of the Commercial College, Chicago.

BASE BALL MATCH.—A match at Base Ball is to be played by the Milwaukee Club on their grounds, Spring Street Hill, *this*, Wednesday, afternoon, at 3 o'clock. An omnibus will leave the corner of Wisconsin and Main streets, ten minutes before 3, to convey parties to the ground. Members are requested to be prompt in their attendance.

MUNICIPAL COURT, JULY 31.—Paddy Flynn, drunk, $5 and costs. Sent to jail for 20 days in default.

John Wigman, drunk and disorderly, fined $3 and costs. Paid.

Mary Stokes and Sally Cass, stealing chickens from Mrs. O'Rourke. Trial progressing.

A SALE of millinery goods, consisting of bonnets, new style ribbons, trimmings, artificial flowers, glass cases, &c., takes place this morning at CALEB WALL's City Auction Room, at 10 o'clock.

OWING TO THE FACT that the Plymouth Church will not be in a state to hold services in, the Rev. Mr. BARTLETT will *not* preach on Sabbath morning, as announced.

First and Seventh Wards Republican Club.

At a large and enthusiastic meeting of the Republican Club of the First and Seventh Wards, held on Friday evening, July 27th, 1860, at the Kossuth House, in the Seventh Ward, the following resolutions were unanimously passed:

Resolved, That we see with regret that the people of the City and County, in consequence of some surprising decisions of the Judge of the Municipal Court, are fast losing their confidence and respect for said Court.

Resolved, That we declare publicly that the present Judge of said Court does not answer the expectations of our citizens.

Resolved, That we recommend to the citizens of Milwaukee county to consider the justice and importance of petitioning the next Legislature to abolish the law, by which said Court was established.

Resolved, That the Board of Councillors, by endeavoring to keep JOHN H. TESCH out of office, he having been twice elected by the people to the office of City Treasurer, in putting his surety too high, acted so from revenge and fear, that Mr. TESCH would make disclosures which would damage the leaders of the Democratic Party.

Resolved, That we, although not residents of the Sixth Ward, but as citizens of Milwaukee hereby express our unlimited disgust of Councilor HERZER, who—to the advantage of Swindlers, but to the disadvantage of the city—brought into the Common Council the resolution to withdraw the suit of the State against the former City Clerk, Mr. Lynch, and to settle with him.

Resolved, That we approve the action of those citizens of the Sixth Ward who wish said Herzer to resign his office as Councilor, as unworthy of the confidence of the people and forgetful of his duty.

Resolved, That we perceive in the motion of Councilor Greulich to allow at pleasure alterations or omissions in the official reports of the proceedings of the Common Council, an attempt to deceive the community and to keep from the people the true statement of our City Administration—an attempt which would not be remarkable in a monarchy, and which would be, perhaps, rewarded with a title—but which, in a Republican State, is entirely inadmissable and condemnable.

Resolved, That these resolutions be published in all the English and German Republican papers of the city, and that the editor of the *See Bote* be also requested to give publicity to the same.

The meeting was addressed during the evening by B. DOMSCHKE, H. E. PAINE, FREDERICK WINKLER, M. OTTERBOURG and JNO. LOCKWOOD.

B. DOMSCHKE, President.

JOHN DRESSLER, Secretary.

PIC-NIC EXCURSION.—There will be a pic-nic excursion for the benefit of St. Mary's Hospital, (Roman Catholic) at the North Point, on Wednesday, August 8th. Arrangements have been made to render it a pleasant and profitable gathering. Refreshments will be furnished on the grounds. As the North Point is one of the pleasantest spots for miles about the city, lying upon the lake shore, and well supplied with groves and lawns, and as the Horse Railroad will carry passengers almost to the spot, we may anticipate a very large gathering. The admittance will be only ten cents.

"EVERGREEN CITY MILLS."—We are indebted to the proprietors of the "Evergreen City Mills," at Sheboygan, for a barrel of their "Lincoln and Hamlin" Flour, and having made trial of it can safely commend it to all Housekeepers as an unexceptionable article. It is, indeed, as good Flour as we have seen in our market this many a day and cannot fail to become one of the favorite brands for home consumption, as well as for the Eastern Markets. Success to the "Evergreen City Mills" and their "Lincoln and Hamlin" flour!

THE SIXTH ANNUAL Equestrian Exhibition and horse show at Janesville, on the 4th, 5th, 6th and 7th of September promises well. The premium list amounts to three thousand dollars and is open to exhibitors from all the States and Canada.

It is thought that the liberal prizes offered to lady equestrians will secure the attendance of the best lady riders in the northwest.

Extensive arrangements are being made in the city and vicinity to accommodate all who may attend.

MR. EDITOR:—*Whitewashing*, in the HANNAH ROELKE case, not being satisfactory to pertinacious Mr. "Dry Goods," let me assist his "pursuit of knowledge under difficulties," by asking the District Attorney another question. Why were two indictments *quashed* against CAROLINE SCHARIFF and a new *capias* issued for her arrest, when it was known that she was notified of the fact that such was to be the result of the charges against her? Was the new *capias* issued to cover *accidents* or appearances.

HARDWARE.

Milwaukee, July 15.

LECTURE BY THE REV. MR. BARTLETT.—The *debut* of this brilliant young divine before a Milwaukee audience, as a lecturer, is destined to create as great a sensation as that of any other speaker, whom the Young Men's Association could invite, with the exception of HENRY WARD BEECHER. His fame as a pulpit orator is perhaps greater than that of any other of his age, and, with the novelty of the subject, will contribute to swell the attendance to the utmost capacity of the Albany, on Friday evening.

YESTERDAY was a most peculiar day—just as lovely a sample of days as was ever picked from the stock of time, but there was a delicate chill on the air that reminded one of autumn, a grayish tint in the sky, and a soft gloom on the water, that was delicious, like a peach from the bough, or an iced drink of an early summer summer's morning.

THE BOARD OF ALDERMEN, on Monday night, accepted the bond of Mr. TESCH Mr. GREULICH, it seems, now thinks the bond is too high. He was given to understand, however, that it was a good precedent, and hereafter the Treasurer of the city would be expected to furnish security that would be of some weight.

MASS MEETING IN THE NINTH WARD.—All citizens of the Ninth Ward are hereby invited to meet Thursday, the 2d of August, at 7 1 2 o'clock P. M., at JOHN GOETZ's, corner of 12th and Vliet street, in order to consult about important city and ward matters.

MANY CITIZENS OF THE 9TH WARD.

IT IS ANNOUNCED that Senator DOUGLAS is coming to Milwaukee. The Third Ward will be illuminated; five and forty boys will parade, and the *News* will break its wings a-flapping. What else! Heaven send us brother CODDING at the same time.

State Teachers' Association.

Notice is hereby given to the teachers that contemplate attending the State Teachers' Association, to be held in Milwaukee, on the 1st of August next, that all the railroads leading from Milwaukee, will carry teachers, to and from the Association, at half-fare—*i. e.*, full fare on coming to the city, and return free.

The Association will hold its first session in the First Presbyterian Church, corner of Mason and Milwaukee streets, on Wednesday at 3 p. m., on the first floor. The Committee of Arrangements will be at the basement of the Church during the whole day, to assign persons, as they report themselves, places of entertainment. J. FORD,

Superintendent of Schools.

JUDSON'S PATENT
GOVERNOR VALVES,
FOR REGULATING THE
MOTION OF STEAM ENGINES,
WARRANTED THE MOST PERFECT Governor of Steam Power in the world, and like all really great inventions, the most simple. Manufactured by Judson & Snow, at Rochester, N. Y., Selye Buildings, near R. R. Depot.

CAUTION TO INFRINGERS.
Patent issued in the United States, Nov. 5th, 1849. Reissued, Jan. 4th, 1854. Second Patent, March 4th, 1851. Patented also in Great Britain and the Canadas, June 6th 1851.
This improvement consists in making regulating valves to open with a rapidly increasing ratio of opening, by increasing the width of the opening made in the valve—or by accelerating the opening motion of the ordinary valves in use—or by combining increased width of opening, with accelerated valve motion. My patent Valves and Governors are so arranged as to give the resistance to the piston's motion, (or retard of the engine,) the power to open the valve just the exact amount of aperture necessary to counterbalance that resistance; and from the aperture, by the addition of equal amounts of resistance, notwithstanding that the action of the governor is continually decreasing in its effects.
I therefore reverse the action of valves combined with governors, as heretofore used. And as this effect can be produced by many different mechanical devices, (apparently not similar, but really indentical with my improvement,) by which infringers have imposed upon the public, I therefore caution and request all persons interested, to examine carefully all alleged improvements in valves or governors, to see if the application of this truth or principle, first discovered and applied by me, is not involved in their arrangements;—and thereby prevent a fraud upon the purchaser and inventor, both of which are at present much annoyed by their practical depredations.

The Magnitude of our Lake Commerce.

During the thirty-six hours ending on Saturday evening last, as we learn from the Detroit *Daily Advertiser*, upwards of *one hundred sail vessels*, fifteen propellers, and several side-wheel steamers, passed that port; those bound up being loaded with merchandize, and those bound down, with Western produce. Among the commodities carried by this large fleet, were 300,000 bushels of grain, two million feet of lumber, one thousand tons of iron ore, 300,000 barrel staves, &c., valued at over *a quarter of a million of dollars*. This is not the busiest season of navigation; up freights being comparatively light, and the new crop only just beginning to come to market. A month or two later, almost any 36 hours will see a much larger amount of produce and merchandize passing Detroit. Still the fact stated, very forcibly illustrates the magnitude of our Lake Commerce, and the importance of this interest to the people of the North-West.

Why is it that an interest like this receives no protection from the General Government? Why is it that no appropriations are made by Congress to improve and secure the great natural highway between the North-Western States and the Atlantic sea-ports? Why is it that no means are provided for the improvement of the different Harbors on the chain of Lakes, and the removal of obstructions to the navigation of our great Western rivers?

The answer is, that the so-called Democratic party, who have controlled the action of Congress and the administration of the General Government for the past four years, hold such appropriations to be *unconstitutional* and therefore refuse to make them.—They are ready to spend thousands of dollars, at any time, to remand to bondage some escaped slave, or to punish a violation of the Fugitive Slave act; but they will not give *one cent* for the improvement of the Harbors, or the protection of the Commerce, of the Western Lakes! How long will the People of the great and growing States, bordering on these Lakes, submit to such gross and palpable injustice?

The Real Issue.

The issue now before the people of the country was truly stated by Mr. HICKMAN, when he said that it was simply *whether slavery should be a national institution*, and the controlling power in the country, or whether it shall remain where the Constitution left it, and be confined to the fifteen slave States in which it now exists. Those who desire to confine it within its present limits, will vote for Mr. LINCOLN. Those who desire to have it extended, and keep it the governing power in the nation, will vote for DOUGLAS, or BRECKINRIDGE, it matters little which. The issue is a plain and simple one. Slavery *extension*, or slavery *restriction* is the question. The Republicans are for the latter. Mr. DOUGLAS and Mr. BRECKINRIDGE are both for the former; the latter passively and the other *actively*. So far as the slavery question is concerned, with the Dred Scott decision, it does not make a pin's difference whether you vote for DOUGLAS, or BRECKINRIDGE; except that the latter boldly assumes the ground, which the former tacitly concedes. The only possible way to prevent the spread of SLAVERY, and put a stop to the "agitation" of the question, is to vote for LINCOLN and HAMLIN. To vote for either DOUGLAS, BRECKINRIDGE, or BELL, simply prolongs and intensifies "the irrepressible conflict." Let every man, therefore, who believes that the time has come when a limit should be set to the extension of SLAVERY and that the interests of FREE, rather than Slave labor, should be the chief care of the Federal Government, give his voice and vote for ABRAHAM LINCOLN.

Douglas' Southern Argument.

Mr. Douglas saw the injustice of the Missouri Compromise to the South, hence through his instrumentality it was repealed, and slavery extended from 36 degrees 30 minutes to the 38th parallel north latitude.—*Atlanta (Ga.) Confederacy.*

The South understood at the time, and understand now, that the Missouri Compromise was repealed to spread Slavery. Mr. DOUGLAS himself boasts that such has been its effect. In his speech in the United States Senate, May 16th, 1860, he said: "*Under this doctrine of non-intervention the people of New Mexico have introduced and protected Slavery in that whole Territory. Under this doctrine they have converted a tract of free territory into slave territory five times as large as New York—giving you* (the South) *a degree and a half more slave territory than you ever claimed.*"

The Atlanta *Confederacy*, a fire-eating journal, which supports DOUGLAS, claims for him the gratitude and suffrages of the South, on the ground that, "*through his instrumentality*," the Missouri Compromise was repealed and "*a degree and a half more Slave Territory*" than they had ever claimed was thus secured to the South. Mr. DOUGLAS openly proclaims that such was the practical effect of his repealing measure and he might, with equal truth, add, that his "non-intervention" principle, viewed in the light of the Dred Scott decision, will bear the same fruit. Both are favorable to the spread of SLAVERY, and both hostile to the interests of FREE LABOR.

SENATOR GREEN FOR DOUGLAS.—The *News* announced, a day or two since, with quite a flourish of trumpets, that Senator GREEN of Missouri had declared for DOUGLAS. What Mr. GREEN thinks of Mr. DOUGLAS may be inferred from the following extract from a speech recently delivered at St. Joseph, Missouri:

> He (Senator Green) supported John C. Breckinridge, because he had never traveled up and down the river on the decks of a steamboat, advocating his own election to the Presidency; he had never descended into beer saloons, and drank lager in order to gain popularity with the vulgar rabble; he had never sent hired letter-writers all over the country to puff himself into notoriety, and cry down everybody else; he had never prostituted the telegraph to sound his own praises, and misrepresent every other prominent man in the party; and, finally, he supported him because he was the only man who had any chance of defeating Lincoln.—No Southern State would under any circumstances, cast her electoral vote for Douglas, and he didn't believe he could get a single Northern State.

Possibly the *News* may find satisfactory evidence in the above paragraph that Senator GREEN goes for DOUGLAS, but it does not look like it to us.

WE SEE IT STATED that Tom Hyer has been sent to jail for vagrancy. Tom Hyer was a delegate to the Chicago Black Republican Convention.—*Madison Patriot.*

"TOM HYER" was no more a "delegate to the Chicago Black Republican Convention" than "Pump" CARPENTER was; nor has he been "sent to jail for vagrancy." Try again, "Pump."

Portage City and its Surroundings—The Crops and Harvest.

Correspondence of the Sentinel.

PORTAGE CITY, July 30, 1860.

The thermometer stands altogether too high out here in the "rural districts," where there is no Lake breeze to moderate the scorching sunshine, to make it pacticable to think of such a thing as writing an elaborate letter, so I will give you my ideas of this place and its surroundings in a promiscuous sort of a way, beginning with a word about the crops—the all absorbing theme just now. Harvesting is only fairly commenced in this section, and not one-tenth of the wheat crop is yet cut. It is all important, therefore, that we should have a couple or three weeks favorable weather yet, and that, I am glad to say, there is now every indication of. The rain of last Saturday was not so heavy out here as in Milwaukee, and as it was not accompanied with much wind, it did little or no damage to the wheat. On the line of the Milwaukee & Minnesota Rail Road between this place and Milwaukee, comparatively little of the wheat was lodged, and a few more days such as this will make it all ready for the reaper.

The farmers are jubilant in view of the prospects of a most bountiful harvest, and good prices for their wheat the coming fall. I have seen none who expect an average of less than 25 bushels of wheat to the acre and many are confident of as many as 30 to 35 bushels. I conversed with an intelligent farmer to day named ANDREW ROBESON, who has about a hundred acres of wheat some five miles West of this place, and he informed me that the average yield of the whole would be more likely to exceed than go under 30 bushels to the acre, and he has a small patch of Rio Grande that will probably yield as much as *forty bushels to the acre.*—I put a small sample of this latter into my carpet bag for the special benefit of the Chamber of Commerce when I get home. Although cut about a week ago and now pretty dry, the berries are plump and nearly as large as good sized peas!

As nearly as I can learn, there was at least fifty per cent. more ground sown to wheat in the section of county traversed by the Milwaukee & Minnesota Rail Road this year than last, and the yield will be, I should judge, fully 50 per cent. better. Taking these estimates as a basis, the inevitable conclusion is that the said Rail Road will have busy times this fall, and the lucky farmers of this region plethoric purses.

Now a word about Portage City and I have done for the present. Your correspondent was a resident of the then embryo city, for a brief period, some ten years ago. I need not tell you that ten years time has wrought wonderful changes here, as everywhere else throughout the West. When I first visited Portage, the site of the present city, if I mistake not, was government land, 160 acres of which had a short time previously been *claimed* by some lucky squatter, and a little cluster of busy stores, now a mile and a half from the city, close by the old Fort, was looked upon as the nucleus of a great place. But the Rail Road and other causes have quite reversed the order of the town as originally planned, and the place which was once the scene of busy life is now completely deserted, and like the ruins of the old Fort, presents the most desolate appearance imaginable. The Franklin House, in earlier times the chief ornament and by far the most important institution of the place, stands alone in the middle of a dismal swamp—which at the time it was built was thought to be in the centre of the future city—unfrequented except by the birds and vermin of the swamp, at once an object of gloomy and peculiar interest as a relic of the good old time when Rail Roads were unknown in Wisconsin.

The city is very pleasantly located on a picturesque bluff, overlooking the junction of the Fox and Wisconsin rivers. It contains a number of fine brick blocks—the brick made here being of the same color and quality as Milwaukee brick—some very tasty residences, and four neat church edifices. The only respect in which Portage is behind the majority of our inland Wisconsin cities is in not having a good hotel building. But the want will doubtless soon be supplied.

The canal connecting the waters of the Wisconsin and Fox Rivers, a mile and a half long, and the enormous expenditures to make the latter navigable, have as yet resulted in no practical utility, unless it be to furnish a water-power for an excellent stone flouring mill, situated at the north end of the canal, and owned by Messrs. REYNOLDS, CRAIG & BENNETT, whose famous "Portage City Mills Extra" stands so high in the Milwaukee market. The work of dredging, however, is still carried on vigorously, and should the navigation of the Fox River ever become practicable, it will become a channel for the outlet of a large amount of the produce of this region by the way of Green Bay.

I leave for La Crosse this morning and may possibly make a short tour into Minnesota; if so, I shall inform you of the prospects and progress of the harvest in that State.

Yours in haste,
MILWAUKEE CLUB.

TURN OUT OF THE WIDE-AWAKES—FLATTERING COMPLIMENT TO MR. BISHOP.—The fact having become known that the popular President of the Young Men's Republican Club, Mr. Albert W. Bishop, contemplated leaving the city, to take up his future abode at LaCrosse, Wis., and that the time of his departure was fixed for last evening, the Wide-Awakes determined to pay him the merited compliment of a public escort to the depot, and thus manifest the high estimation in which he was held by his political friends and associates. It was a demonstration of which older and more prominent men in public life might well be proud, and which we hazard nothing in saying Mr. Bishop will remember as one of the most pleasing incidents of his life. The parade was the largest yet made by the Wide Awakes, and the fullness of the ranks gave additional value to the testimonial.

Mr. Bishop was taken from the American Hotel about nine o'clock in the evening, and escorted through the principal streets, by a lengthy route, to the Exchange street depot. Within the building, the company were drawn up in order, and were addressed by Mr. Bishop, in a brief speech of farewell tenor, which was evidently the utterance of his inmost heart. He was affected to that that degree that he could scarcely control his voice; yet he spoke eloquently and well. Three hearty cheers were given him at the conclusion of his farewell remarks, and then his most intimate and warm personal friends broke from the ranks to snatch a hurried hand clasp and say good bye. Returning from the depot, the Wide-Awakes were deployed upon the Terrace, and on that broad open space gave a most magnificent exhibition, performing a great variety of evolutions and manœuvres which produced a gorgeous effect. The long gleaming lines were made to describe all sorts of regular and eccentric figures—strange patterns woven of light—which were glorious to witness.

They were finally marched into the dining room of the Mansion House, where the host, Hon. P. Dorsheimer, had spread an excellent collation for their entertainment. After full justice had been done to the hospitalities of the Mansion, calls were made upon several prominent gentlemen who were present, for speeches, and Hon. E. G. Spaulding, Hon. P. Dorsheimer, Mayor Alberger, William Dorsheimer, Esq., and A. M. Clapp, Esq., each responded in brief, pertinent addresses which were received with much enthusiasm. The stay at the Mansion was not protracted, and a little after 11 o'clock, the Wide-Awakes marched back to their quarters, having performed a good night's service, in arousing the Republican spirit of our city.—*Buffalo Com. Adv., July 28.*

INDIAN MEAL SHORT CAKES.—Stir into a pint of milk three eggs beaten light, add a little salt, and half a cupful of butter, with enough sifted meal to make a thick batter.—Drop it from a large spoon upon buttered tins, and bake to a light brown color, in a quick oven.

INDIAN SPONGE CAKE.—One quart of fine-bolted Indian meal, one cupful of flour, one cupful of sugar, two eggs, one quart of sour milk, and a teaspoonful of saleratus.

Hail Storm in Calumet—Damage to Crops

Correspondence of the Sentinel.

CHARLESTOWN, Calumet Co., Wis., July 28.

MESSRS. EDITORS:—This place was visited last evening, by one of the most violent hail storms that it was ever my lot to witness. Fields of grain that would have been fit to harvest in a few days, were laid flat and twisted to every point of the compass. I have twenty-four acres of heavy wheat that is whirled and twisted so bad, and laid so flat that it will be impossible to cut it with a cradle, and most of my neighbors are served in a like manner. It will greatly damage the small farmers in this section of the country, that have had hard grubbing to live for the last two years. But, as the old woman said, when all of her property consisted of one hen, and that died, "those that have must lose." Hail-stones fell the size of hen's eggs. Yours &c,

J. H. STANLEY.

THE WHEAT CROP FOR 1860.

Estimate of the Committee on Farms of the State Agricultural Society.

STATE AGRICULTURAL ROOMS,
MADISON, July 25, 1860.

Editors State Journal:—The accompanying communication, from the Committee appointed to award premiums on the best and second best farms in Wisconsin, is so interesting and important in its character, that I trust you will cheerfully give to it the widest possible publicity in your power. The figures used in the estimate of our wheat crop will doubtless startle those who are not familiar with the data, but they will stand the test of the most rigid investigation.

Very truly yours,
J. W. HOYT.

MADISON, July 24, 1860.

J. W. Hoyt, Sec'y Wis. State Agricultural Society:

SIR:—The undersigned, as the Committee of Judges on Farms entered in competition for the prizes offered by the Wisconsin State Agricultural Society, have performed the duty assigned them, and will, in due time, as required by the Executive Committee, make a complete and careful report for publication in the Vol. of Transactions for the present year. The simple awards, which we herewith place at your disposal, may be published or withheld as your judgment shall approve. For the meantime we have pleasure in responding to your request—and we may add, similar requests have been made by numerous citizens—for an account of the agricultural condition of those portions of the State over which we have had occasion to travel, together with as correct an estimate as our observation and enquiries have enabled us to make, of the chief agricultural products of Wisconsin, for the year 1860.

Our personal observations were confined to the counties of Dodge, Jefferson, Waukesha, Milwaukee, Racine, Kenosha, Walworth, Rock and Dane; but when it is remembered that these counties embrace a large proportion of the best cultivated lands in the State, and that before making our estimates we took great pains to secure reliable information from the counties not observed from us, it will hardly be denied that we have the requisite data for a calculation that shall closely approximate absolute correctness.

We were prepared, before setting out on our excursion, for cheering scenes and a wealth of crops such as we had not witnessed for years. A most remarkable season and an unparalleled luxuriance of vegetation in our respective localities had filled us with expectations which else had been wild in their extravagance. And yet the sequel had shown that not even the half had been hoped-by us. Almost without exception the crops were better in quality than we had anticipated, and the quantity, the area, was perfectly astonishing, proving beyond a question that the stringency of the times during the past three years, in addition to all the economical virtues they may have developed, have likewise served as a powerful stimulus to the energies and enterprise of our farmers.

Where less than two years ago the virgin soil had never been disturbed by the plowshare of man, there are now hundreds of thousands of acres waving with luxuriant crops. Every farmer in the State would seem to have taxed his energies, his purse and his credit to the last extremity, inspired by a sort of unaccountable faith that three successive failures are not followed by a fourth, and that the year 1860 was to be the year of redemption for all who, to the best of their ability, would use the means within their reach for disenthralment from debt, and the re-establishment of the old reputation for integrity to which they felt they were justly entitled. And hundreds of poor laboring men who had never cultivated the soil, have left the cities and villages, driven out by impending starvation and ruin, have bought them small farms at reasonable prices, "on time," and to day those very lands are covered with golden harvests sufficient in value not only to ensure their families a comfortable support for the year, but likewise to pay for the improvements made, and in some cases to liquidate a large share of the debt incurred by the purchase.

Of course, wheat is the great staple crop, as it has been for years past, and probably will be for years to come. In every section of the State whither our duties called us, the gratifying spectacle was presented of glorious wheat fields in all the later stages of development—some just fairly headed, and still fresh and luxuriant in their greenness; some slightly tinged with gold, others already "white to the harvest," and a few falling rapidly before the many-toothed, triumphant reaper—here a field of forty acres, limited on one side by a deep shady forest of timber, and on the other by rustling fields of corn;

feel warranted in estimating the number of acres the present year at one-third more than the crop of '59, and the average yield per acre at not less than one-fifth greater than in '56 and '57. If these premises be correct by the aid of the statistics of former years, we arrive at the inevitable conclusion that the wheat crop in Wisconsin must equal 1,062,097 acres, with a yield of 22,304,097 bushels! So that, after deducting the odd hundreds of thousands, for loss in harvesting and for possible exceptional crops in localities concerning which we are wanting in definite information, we may safely reckon the gathered product at twenty-two millions of bushels!—an amount with which we may feed the entire population for the year, and have a surplus of seventeen millions for exportation; which, at probable prices, will yield a revenue of at least TWELVE MILLIONS OF DOLLARS!

But this remarkable crop of wheat does not stand alone: nearly all others have been equally successful, and a corresponding large area has been devoted to their cultivation. So that the lowest estimate which can consistently be made, will give us *fifty millions of dollars*, as the aggregate valuation of our agricultural products alone, for the year 1860!

Does this look like irrecoverable bankruptcy and starvation? Verily, our farmers have not been asleep, and the time is at hand, when our noble Wisconsin, unparalleled for the beauty of her scenery, and unsurpassed in the variedness and fertility of her soil, shall stand forth, fairly, from the disgrace which it has been her misfortune to suffer through the accursed vampirism of soulless capitalists abroad, and the worse than vampirism of reckless demagogues and public corruptionists at home. There is to be found nowhere, either in this country or any other, a people of greater physical health, intellectual vigor, earnestness and honesty of purpose or a more faithful and effective industry than are the farmers of this State, and if they are not forgetful of the errors of the past, and will wisely use the means in their hands for their best advancement in wealth and intelligence, they may easily and early win for this young republic a proud eminence among the first States of the confederacy.

Very respectfully, your ob't servants.

GRAND CHANCE TO SECURE A HOME upon such terms that any one who has any industry can do it. Mr. Glidden, who owns one-half of Lockwood & Glidden's Addition, has made me his agent, to sell his lots in said Addition, at unusually low prices, to any one who will improve them, and upon such terms that any one can meet the payments. It is unnecessary to go into argument to convince one who has any judgment that this property, which is situated in the First Ward, must, and will be the most desirable residence property in the city of Milwaukee. It is in full view of the Lake and on high ground which overlooks the city, and a more healthy situation cannot be found. Its location for business men is very desirable, the Horse Railroad passing through it every fifteen or twenty minutes. Much more could be said about this valuable property, but we will only say, any persons who have any desire to purchase any of said lots, if they will call at my office they can see a man, and I will go with them and show them the Lots, and they can judge for themselves. The terms on which said lots will be sold are as follows: Ten per cent. in twelve months; 15 per cent. in two years; and 25 per cent. every year thereafter until the amount is paid, with interest at the rate of 7 per cent. per annum, interest not to commence until six months after the date of purchase. Here is a chance never before offered, and there is every reason to believe that this property will advance 100 per cent. in less than twelve months. The great advantage of the Horse Railroad must, and will make it very desirable. The Lots are free from all encumbrances whatever. Certificate of title will be furnished to any one who may purchase.

Boots and Shoes,
60 LAKE STREET, CHICAGO 60.

WE OWN THE EXCLUSIVE RIGHT for the sale of *MITCHELL'S PATENT METALLIC TIPPED BOOTS AND SHOES*, for and within the States of Wisconsin, Iowa and Minnesota, and hereby give notice that all parties dealing in these goods within the above States, without having first arranged with us and by our consent, are and will be direct infringers upon our EXCLUSIVE rights, and that as soon as we are advised of any infringement, shall demand proper and immediate redress.

We have made extensive arrangements with the most celebrated manufacturers, whereby we can fully supply the increasing demand with the best qualities of these Tipped Boots and Shoes from our store in Chicago, each pair of which will be stamped and labeled with our name.

We shall recognize no Tipped goods within either the above States, but such as are thus stamped and supplied by us.

We will warrant in all instances one pair of child's copper-tipped shoes to outwear two and oftentimes three or four pairs of equal quality without tips, as can be shown by very many testimonials, while the expense is but a trifle more, making an actual average saving to the consumer of near two hundred per cent.

Merchants and dealers in Boots and Shoes within the above States, can also find these Metallic Tipped Boots and Shoes, supplied and properly stamped by Wadsworth & Wells, for sale by ATKINS, STEELE & WHITE, and BRADLEY & METCALF, Milwaukee.

Pimples on the Face and Skin Diseases

ARE GENERALLY CAUSED BY ANImalculæ burroughed in the skin. Dr. Trask's Magnetic Ointment, by its powerful and penetrating qualities, destroys every vestige of them, restoring health and beauty to the skin wherever applied, removing Tan and Freckles.

Inflamed or Sore Eyes.

A. G. Cushing, of South Bend, Ind., says: "The Magnetic Ointment is the only remedy in use here for INFLAMED EYES. The Auditor of our county has so much faith in its curative powers in this disease, that he not only highly recommends it, but offers to forfeit the amount paid for it in each case, if it fails of a cure."

Piles which are at this season of the year particularly troublesome, are cured at once by Trask's Magnetic Ointment; apply to the parts affected and small of the back.

THE WIND AND THE SEA.

The sea is a jovial comrade,
He laughs wherever he goes;
His merriment shines in the dimpling lines
That wrinkle his hale repose;
He lays himself down at the feet of the sun,
And shakes all over with glee,
And the broad-backed billows fall faint on the shore
In the mirth of the mighty Sea.

But the Wind is sad and restless,
And cursed with an inward pain;
You may hark as you will, by valley or hill,
But you hear him still complain.
He wails on the barren mountains,
And shrieks on the wintry sea;
He sobs in the cedar and moans in the pine,
And shudders all over the aspen tree.

Welcome are both their voices—
And I know not which is best—
The laughter that slips from the Ocean's lips,
Or the comfortless Wind's unrest.
There's a pang in all rejoicing,
A joy in the heart of pain,
And the Wind that saddens, the Sea that gladdens,
Are singing the self-same strain.

RAIN.

BY HENRY WARD BEECHER.

From the New York Ledger.

Men begin to look at the signs of weather. It is long since much rain fell. The ground is a little dry, the road is a good deal dusty. The garden bakes. Transplanted trees are thirsty. Wheels are shrinking and tires are looking dangerous. Men speculate on the clouds; they begin to calculate how long it will be, if no rain falls, before the potatoes will suffer, the oats, the corn, the grass,—everything! To be sure, nothing is yet suffering; but then——

Rain, rain, rain! All day, all night steady raining. Will it never stop? The hay is out, and spoiling. The rain washes the garden. The ground is full. All things have drank their fill. The springs revive, the meadows are wet; the rivers run discolored with soil from every hill. Smoking cattle reek under the sheds. Hens, and fowls in general, shelter and plume. The sky is leaden. The clouds are full yet. The long fleece covers the mountains. The hills are capped in white. The air is full of moisture. Rain, rain, rain! The wind roars down the chimney. The birds are silent.—No insects chirp. Closets smell moldy. The barometer is dogged. We thump it, but it will not get up. It seems to have an understanding with the weather. The trees drip, shoes are muddy, carriage and wagon are splashed with dirt. Paths are soft. So it is. When it is clear we want rain, and when it rains we wish it would shine. But, after all, how lucky for grumblers that they are not allowed to meddle with the weather, and that it is put above their reach! What a scrambling, selfish, mischief-making time we should have, if men undertook to parcel out the seasons and the weather according to their several humors or interests!

But, if one will but look for enjoyment how much there is, in every change of weather. The formation of clouds; the various signs and signals, the uncertain wheeling and marching of the fleecy cohorts; the shades of light, and gray, in the broken heavens, all have their pleasure to an observant eye. Then comes the wind gusts, the distant, dark cloud, the occasional fiery streak shot down through it, the run and hurry of men whose work may suffer! Indeed, sir, your humble servant, even, was stirred up on the day after the "Fourth of July." The grass in the old orchard was not my best. Indeed, we grumbled at it considerably while it was yet standing. But, being out, and the rain threatening it, one would have thought it gold, by the nimble way in which we tried to save it!

Blessed be horserakes! Once, half a dozen men, with a half dozen rakes, would have gone whisking up and down, throwing out and pulling in the long handled rake, with slow and laborious progress. But no more of that. See friend Turner mounted on the wheeled horserake, riding about as if for very pleasure. Up go the steel teeth and drop their collected load, down go his feet, and the teeth are at work again; and at every ten or fifteen feet the winrow forms. It is easy times when men ride and horses rake! No more hand-rakes, and no more revolving horserakes!

Meanwhile, the clouds come bowling noiselessly through the air, and spit here and there a drop preliminary. But the hay is cocked, the sides dressed down, and all is ready—except the hay-covers! Alas for our negligence! The manufacturers had offered to send us some for trial, and we had forgotten to say, send them along! And now, with our hay out and the rain coming, we mourned our carelessness. With good hay-covers, our two dozen little haycocks would have been as snug as if in the barn.

Well, if one thing suffers another gains.—See how the leaves are washed, the grass drinks, the corn drinks, the garden drinks, everything drinks. It's our opinion that everything except man is laughing and rejoicing. Trees shake their leaves with a softer sound. Rocks look moist and soft, at least when the moss grows. Even the solitary old pine tree chords his harp and sings soft and low melodies with plaintive undulations.

A good summer storm is a rain of riches. If gold and silver rattled down from the clouds, they could hardly enrich the land so much as soft, long rains. Every drop is silver going to the mint. The roots are machinery; catching the willing drops, they assay them, stamp them, and turn them out coined berries, apples, grains and grasses!

When the heavens send clouds, and they bank up the horizon, be sure they have hidden gold in them. All the mountains of California are not so rich as are the soft mines of heaven, that send down treasures upon him without tasking him, and pour riches upon his field without spade or pickax—without his search or notice. Well, let it rain then! No matter if the journey is delayed, the picnic spoiled, the visit adjourned—blessed be rain—and rain in summer! And blessed be He who watereth the earth, and enricheth it for man and beast.

HUNN & CROSBY,

Two doors north of Uncle Ben's Hat Store.

TAKE THIS OCCASION TO ANNOUNCE to their friends, and the public at large, that they have removed from their old quarters to their present location, for the purpose of obtaining more ample accommodations in their business, and to keep pace with the requirements of their trade. We have just made heavy additions to our stock, which makes ours the best assorted Family Grocery in town, and we intend to be in future, as we always have been in the past, the first in the market with every novelty of the season. We are receiving goods every week from the East, thereby always keeping our stock fresh and full. Everything pertaining to the trade can be found at our establishment, and we are prepared to sell at wholesale as well as retail, on as favorable terms as any concern in town. Teas, Sugars, Coffees, Dried Fruits, Hermetically Sealed Fruits, and every other article usually found in first-class family groceries, are sold by us, and always warranted as represented. We will sell you a better Tea for fifty cents, than you can buy anywhere else in town for seventy five, and as good a one for forty, as our windy cotemporaries, who make such a blow on TEAS, will or can sell for fifty. We mean what we say, and stand ready to verify it every hour in the day, and every day in the week. We make it a point never to be undersold, and want it distinctly understood that we do our business upon that principle.

Country merchants can always sort up their stock with us, to a good advantage. We will sell you goods by the package as low as any of the wholesale dealers down town.

Butter and Eggs are received by us daily, from our agents in the country.

☞ TERMS CASH.

We cordially invite our friends and customers, and the public generally, to call and see us in our new institution, and make an examination of our goods and prices. Particular attention paid to orders.

St. Nicholas Hotel,

BROADWAY,

NEW YORK.

WHEN COMPLETED, SIX YEARS ago, the St. Nicholas was universally pronounced the most magnificent, convenient and thoroughly organized establishment of the kind on this continent. What it was then, it remains today—without a rival in sumptuousness, and in the general elements of comfort and enjoyment. The Hotel has accommodations for 1,000 guests, including 100 complete suites of apartments for families. Six hundred persons can be comfortably seated at the tables of its three public dining rooms, and nothing that modern art has devised for the convenience and social gratification of the traveling public has been omitted in its plan, or is neglected in its practical details. The early reputation of the house at home and abroad derived from its magnitude, its superb appointments, and its homelike comforts and luxuries, has been enhanced every year by the unwearied exertions of the proprietors.

THE GREATEST

MEDICAL

DISCOVERY

OF THE AGE.

MR. KENNEDY, OF ROXBURY, HAS discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR

FROM

THE WORST SCROFULA DOWN TO A COMMON PIMPLE.

He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the stomach.

Three or five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother,

NURSING SORE MOUTH

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your baby from short and fretful naps to calm and sweet slumbers, and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of

CANKER

it extends to the stomach, causing

DYSPEPSIA

which is nothing but canker on the stomach; then the intestines and

KIDNEYS

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds; and even of that your system does not get half the nourishment it contains, as the acrimonious fluid at the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to

CURE:

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have, both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,

DONALD KENNEDY.

DR. CHURCHILL'S REMEDY,

WINCHESTER'S GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

(Made from the Formula of Dr. J. F. Churchill,)

FOR THE PREVENTION AND CURE OF

CONSUMPTION!

THE SUCCESS OF THIS NEW REMEDY, (discovered by Dr. Churchill, of Paris,) is obtaining the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases.

This Remedy has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act, *as a preventive with regard to Consumption, just as vaccination does with regard to small pox.*

What the Medical Profession Say.

"In no instance have I found the Remedy to fail."—*Dr. Churchill.*

"I have used your preparation of the Hypophosphites *with the most happy effect.*"—*C. Fisher, M. D., Lynville, Ill.*

"*I have been astonished in witnessing the good effects of the Hypophosphites.* The statements in your pamphlet are not at all exaggerated. My patient was just entering the last stage of tubercular consumption."—*S. Moses, M. D., Hoosic Falls, N. Y.*

"They exert an important remedial influence over the tubercular disease by *improving the nervous strength and invigorating the nutritive functions.*"—*Dr. W. E. Rust, Morristown, N. J.*

"I have derived more satisfaction from the use of your Hypophosphites *than from all other forms of medication combined.*"—*Dr. Geo. W. Morris, Columbus, O.*

"If, on the earliest appearance of the symptoms, the patient takes daily about ten grains of the Hypophosphites, he will speedily find himself in the enjoyment of such health as he, perhaps, had never known in his lifetime."

"Winchester's Hypophosphites are unexceptional in their preparation."—*Am. Druggists' Circular.*

"Mr. Winchester is worthy of all confidence, and devotes himself enthusiastically to these preparations in all their variety of combination. Prepared strictly by Dr. Churchill's method."—D. Meredith Reese, M. D., New York.

"LOWELL, O., July 3, 1859.—I have had several cases given up by attending physicians who are now exempt from all the symptoms of pulmonary disease. I have used the Remedy in my own case, with decided success. It was regarded as hopeless by physicians and friends, and even by myself, under the old treatment. I am now able to ride, in attending the sick, as many miles, perhaps, in a day, as any other physician in the country."—W. F. Clark, M. D.

"The Hypophosphites are most appropriate Remedies in a large class of affections resulting from loss of nervous force."—Boston Medical and Surgical Journal.

Dr. Churchill's Work on Consumption

IS NOW READY.

The Hypophosphites may be used with incurable success in Chronic Bronchitis, Asthma, Dyspepsia, and in all "Nervous" Disorders.

Make no Delay!

Consumptives, in any stage of the disease, should resort immediately to the use of the Hypophosphites of Lime and Soda. "Winchester's Genuine Preparation" (in simple syrup), in extra large bottles, is "chemically pure"; is the combination proposed by Dr. Churchill "for general use"; and is prepared according to his original Formula.

For sale, Wholesale and Retail, by HENRY FESS, Jr., Milwaukee, who is authorized to supply THE TRADE at New York prices.

For sale at Retail by J. M. ALCOTT, and by all prominent Druggists.

Ayer's Cathartic Pills.

THE SCIENCES OF CHEMISTRY and Medicine have been taxed to their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstruction of its organs, purify the blood and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organ into their natural action and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

TELEGRAPH!

REPORTED BY THE N. Y. ASSOCIATED PRESS FOR THE DAILY SENTINEL.

The Prince of Wales at Halifax.

HALIFAX, July 30.

The Prince of Wales landed here to-day at noon. The squadron was off the port yesterday. Guns from the fort and batteries greeted him upon his arrival, while the people turned out in immense numbers, to give him a cordial reception. He was presented with an address, and a uniform of cavalry, and rode on horseback to the Government House. Emerging from the gates of the dock-yard, the procession passed through a double file of troops and volunteers, to the Depot House. There were a number of triumphal arches erected in the streets, including Cunard's arch, with a steamship on the top of it; the volunteers' military arch, built of military trophies; the Niagara arch; the Archbishop's arch, a very handsome ecclesiastical arch; the Masonic arch, and a number of other arches, all of which were beautifully decorated.

On the parade, the firemen turned out with a trophy fifty feet high, surmounted by a colossal figure, holding a hosepipe. 3,500 children of the schools also turned out in white and blue, and sung "God save the Queen." All the public buildings, as well as the private ones, schools, &c., were splendidly decorated with flags, banners, transparencies and evergreens. The Mayor of Montreal and a considerable number of Americans were in attendance.

A pouring rain to-night will prevent the exhibition of fire-works.

Latest from Pike's Peak.

ST. LOUIS, July 31—9 P. M.

The St. Jo. Pike's Peak Express with dates to July 23rd, reached here this evening, bringing the following news:

DENVER CITY, 23rd.—A shooting affray occurred in California gulch last week, resulting in the death of a man named Smith, from Ark., while in pursuit of his wife, who had ran away with a man named Curtis, from the same place.

Last evening an auctioneer who has a wife and two children in Galesburg, Ill., was accidentally shot and killed.

Jas. Gordon, formerly from Boston, but lately from Nebraska, who has hitherto enjoyed the reputation of a peaceable man, shot a bar-keeper one night last week while on a spree, slightly wounding him in the leg.

Later in the night he attacked a young German in a saloon, and after maltreating him blew his brains out. The next morning a meeting of the citizens was called and $1,000 raised and parties sent out in all directions in pursuit of Gordon, who was discovered entrenched with a party of friends in Fort Lupton, 25 miles down the Platte. He finally made his escape after having his horse shot and being himself wounded.

A. J. Williams, President of Denver City Town Company, and an Attorney here, were found at Ft. Lupton, and are under arrest for aiding his escape. They were old friends of Gordon and say they were sent for to meet him there and take charge of his papers, and he expected to be shot or hung. One party in looking for Gordon came upon another party, who, feeling guilty, fled for the river. Jessie Ogden escaped them by swimming the river.

Frank Mulligan in attempting the same was drowned. Samuel K. Dunn was taken prisoner with 3 mules and some arms. Ogden and Mulligan were from Wisconsin, and Dunn from Champaign Co., Ill. Dunn says the mules were stolen as the only means by which they could get back to the States.

WASHINGTON, July 31—9 P. M.

Judge Dunlap, Chief Judge of the Circuit Court, has decided on appeal from the Patent Office, that Aikens and Felthouser were the first inventors of the wheel feed and sewing machines, and ordering a re-issuing of their patent to Jas. G. Wilson, their assignee. This re-issue was opposed by I. M. Singer & Co., who claim to have made the invention in 1850; while the Judge decided that Aikens and Felthouser made it in the early part of 1849. It is said all the wheel and the four motion feeds, those of Geo. B. Sloat excepted, infringe the re-issued patent.

TUESDAY, P. M.

VESSEL SALES.—The Detroit *Daily Advertiser* of July 30, says:

We learn that the schooner *Gold Hunter* has lately been sold for $11,000—$5,000 in hand, $4,000 this fall, and $2,000 next spring. She is three or four years old, at least. The sale was mentioned to us as evidence of an improving vessel market.

We hear also that the schooner *Rocket* has been sold for $14,000.

Capt. Grummond has purchased the tug *Dispatch* of Capt. Dawson, of Sombra. The price paid was about $3,000, and the schooner *Crevola*, valued at $4,500, was given in part payment.
